

Gary Sylvester's Building Movers & Excavators
140 Davisville Road
East Falmouth, MA 02536

Dear Mr. Sylvester:

I am writing to praise the work that Gary Sylvester's Building Movers did for us this autumn on Gardiner Road in Woods Hole.

The two who worked at our house, Kevin and TJ, were masters of their machinery and experts at their work. Watching Kevin make that large excavator do exactly what he wanted, whether moving the cement steps or carefully scraping up the final bits of dirt from the basement space he had created, was truly seeing a superb operator, careful and precise in all he did. The team worked together, both in the machines and in careful directions to each other, and clearly respected each other's abilities. Both were always friendly and courteous as well as professional.

One day TJ came from the basement hole with his hand cupped and offered me a very small salamander he had just rescued. I was truly touched by his care and humanity. (I released the little one across the street.) On another occasion, I was very pleased to offer Kevin's wife and son a tour of the Marine Resources Center of the MBL in Woods Hole—and to see this young man proudly wearing his black and silver Sylvester jacket!

We have been completely delighted with your firm's work and will be happy to recommend it to our neighbors and friends. I will send a shorter letter to the Falmouth Chamber of Commerce saying how pleased we are with your company.

Thank you. We wish all of you a very pleasant holiday season and a successful 2010.

Sincerely yours,

A handwritten signature in blue ink that reads "Mary & Volker". The signature is written in a cursive style with a large, sweeping flourish for the letter "V".
